The Colourful world of **DAYMARK**

Food Prep Labels

Service Labels

Labels and Tags for ALL Applications

Since its inception in 1974 Daymark has positioned itself in the market place to offer high quality products and service to its many valued customers.

In this brochure, we have attempted to introduce you to the various items we are able to design, print and supply.

For those customers who prefer to supply their own artwork, we accept most popular digital file formats. Please contact our art dept. for advice on how files should be prepared.

More detailed information is available on any of our products, indeed, please ask if items you are interested in are not shown, as we produce many "specials".

Daymark is situated in the centre of the UK, in modern premises with state of the art equipment across the Graphics / IT / Print spectrum, enabling us to offer a true "In-House" service.

We are a National Supplier with our customer database encompassing all corners of the UK. All goods leave our warehouse on 24 hour couriers.

We are happy to offer advice, further information, samples for trials and of course quotations.

We look forward to hearing from you . . .

Product and Promotional Labels

Produced only to the highest quality standards, Daymark Labels enhance the image and perceived value of all products or services to which they are applied. We are the complete in-house Self-Adhesive Label Producers for any size, shape, colour, on a roll, on sheets, on paper, metallic or synthetics.

Industrial Labels

- Inspection and Service Labels
- Warning and Safety Labels
- Fascia and Rating Panels

With the continuing myriad of legislation in the UK and Europe, the requirement for warning and safety marking shows no sign of let up. Our range of identification in this area is second to none. Let us know what your requirements are and if we haven't printed it before (or stock it), we'll produce it for you (with your own printed details). If you're supplying / installing or even servicing equipment, our range of vinyl labels for tough environments printed to your requirements, ensures recommended and repeat business.

Tags, Tickets and Cards

There is no limit to the options and combinations available to you. Whether it's print colours, tag colours, material types - with barcodes, sequential numbering, perforating and fancy fittings if required. We produce tags and swing tickets for retail, commerce and industrial applications incorporating the Daymark Tuf-Tak re-inforcement strip which gives the tag incredible strength in demanding situations. Our ticketing department produces continuous perforated tickets for use through your thermal and desktop printers. Typical users include Box Offices, Theatres, Exhibitions and Shipping Lines.

Food Preparation Labels

(incorporating Daily Rotation Labels)

The complete quality, health and hygiene assurance system for every food service operator. This simple but effective food rotation system, with a colour coded label for each day of the week, used in conjunction with the Daymark Preparation Label achieves complete identification of pre-prepared foods.

Security, Asset and IT Marking Labels

If your products are at risk of tampering or perhaps your own equipment needs permanent ID marking, we have the solution. Our wide range of adhesives, facestocks, uv-readable inks and holographic foils provide numerous capabilities and options. Asset labels provide permanent, identifiable, inventory control information, whilst our security seals provide evidence of interference and / or proof of tampering. In both applications their presence are themselves a visual deterrent.

Barcode and Sequential Numbering

The first patent for a barcode was issued in 1952. Love them or loathe them, the barcode is here to stay. We are able to create all popular barcodes and more importantly print them on our products with the assurance that they will read by wholesale/ retail barcode scanners. A popular partner to barcode symbology is sequential numbering, which again can be applied to all our labels and tags (with or without barcodes).

Window and Vinyl Stickers

Using innovative processes for the production of vinyl labels and stickers for both permanent and removable applications. Printed front only or both front and reverse (window stickers). Your choice of adhesives: Front Facing/ Rear Facing or Front Facing Cling Film.

Self-Cling Labels (Cling-Lok)

NEW ADDITION!

A matt white cling polypropylene film which has excellent adhesion when applied to itself! These back to back loop labels have no visible adhesive yet have permanent "grab" when placed together. Ideal for Industries such as: Travel, Cosmetics, Jewellery and Promotional. Can easily be barcoded or numbered.

LockTie Tags

Initially developed for the travel and tourism markets, our LockTie Tags have themselves travelled into many different industries. Using tear-resistant synthetics, these tags are popular due to their strength and 'no adhesive' composition. Simply looping into themselves. Recognised users include, hotels, airlines, schools, universities, garden centres and latterly county councils waste collection departments.

Roll Label Dispensers

Our Dispensers are available in 3 sizes for label widths:
(A) up to 80 mm (B) up to 150mm (C) up to 250mm
Universal. Easy Clean Food Grade.
Free Standing or Wall mountable.
Easy to Load - Easy to Use.

Label Applicators

Smooth simple lever action.
For the application of self-adhesive labels with carrier widths*:
(A) 20-30mm (B) 25-60mm (C) 55-100mm
* carrier width = width of label backing paper

Ambassador Business Cards

“The original and still the best”

A range of high quality, exceptionally distinctive business cards, available in numerous colour and print combinations. Including Metallics. Printed on 300gsm coated laminated board.

Cards perform like plastic - without the expense!

Available in two sizes:
85 x 55 mm (credit card) and 90 x 60 mm.
